XX-Large	16 1/2 - 18 1/2"
XXX-Large	18 1/2 - 20 1/2"

800-327-4110

Use: Sports neoprene is an ideal material because it provides consistent compression and four-way stretch for proper fit and comfort. Neoprene retains the body's natural heat to provide therapeutic and soothing warmth to the swollen, tender or injured joint. Tri-Permalon™ top is comfortable against the skin and allows air to circulate for extended wear. The double elastic strap offers adjustable compression to both the medial and lateral sides of the ankle and arch of the foot. The wide strap simulates taping and wraps in a figure-eight design with a simple hook closure. Indicated for swollen, tender, or weak ankles, sprains, strains, sports injuries, and arthritis. Great for night time wear to treat ankle injuries and control edema due to sprains and strains.

- **Supports and Stabilizes the Ankle** while allowing for full flexibility.
- **Made with Sports Neoprene and Tri-Permalon™.** The foot and ankle portion is made of neoprene which provides therapeutic warmth and compression to the joint and soft tissues. The top portion is made of a breathable Tri-Permalon™ foam to let the heat dissipate and air circulate.
- **Wide, Double Elastic Strap** wraps around the joint for increased stability. Figure-eight strap design simulates taping of the ankle and provides arch support.
- **Simple Hook Closure** allows for quick and easy application.
- **Open Heel** comfortable wrap support.
- **May be Worn Under or Over Socks.**

Care Instructions: Fasten front closure and double elastic strap. Hand wash in cold water with mild soap. Wrap in a towel to remove excess water (do not twist or wring). Air dry away from heat. Do not machine wash or tumble dry. Do not bleach.

WEARING INSTRUCTIONS: Unfasten double elastic strap and open hook closure in front of the support. Slip support over affected ankle and pull up. Secure hook closure in front of the support. Pull one side of the double elastic strap up over the foot and wrap around to the back, secure with hook. Repeat for other strap, wrapping in opposite direction.
